

# Plastic bags are now recyclable in Santa Barbara County!

Plastic bags, bubble wrap, and other film plastics can now be recycled in your curbside blue bin or recycling dumpster. Tell all your friends to add these types of plastics to their recycling bin! For a list of recyclable plastics visit [www.plasticbagrecycling.org](http://www.plasticbagrecycling.org)

**IMPORTANT NOTE!** Please **do not** place any bio-based or compostable bags in your blue bins. These types of bags interfere with the recycling of conventional plastics.
